CBE CTS SUMMER SCHOOL PROGRAM INTRODUCTION TO ENGINEERING

Introduction to Engineering is a hands-on course where high school students earn 5 credits while exploring how technology and electronics solve real-world problems. Using Arduino microcontrollers, students learn how hardware and software work together to design, build and program functional systems. This course is ideal for curious problem-solvers interested in engineering, technology, or innovation.

Course Fee: \$15.06
Includes all learning materials, including Arduino introductory kit.

Contact Your Guidance Counsellor Today!

What You'll Learn

- How to program and control Arduino microcontroller
- Design of electrical systems and associated hardware
- Design, production, and test of electronic systems
- Problem-solving and engineering design processes
- How to present computer-aided work to the public

Why Take This Course?

- Gain hands-on design, building, and problem-solving experience
- Learn how to use Arduino microcontroller and programming languages
- Develop critical thinking and problem-solving skills
- Gain professional experience and work experience
- Develop critical thinking and problem-solving skills

July 2 - 28, 2026
8:15 - 12:42 PM

CBETC SUMMER SCHOOL PROGRAM Explore Broadcasting & Podcasting

Explore Broadcasting and Podcasting is a hands-on CTS course where high school students earn 5 CTS credits while creating, test audio and video content like podcasts, talk shows, and broadcasts. Learn how to script, record, film, edit and produce media using industry-style tools while applying how media engages message and audience. Perfect for students interested in media storytelling or creative technology—this can be the way you take ideas from concept to finished product.

What You'll Learn:

- Audio and video recording, filming, and editing basics
- Podcasting, interviewing, and media production skills
- Creating, producing, marketing, and publishing strategies
- Camera work, lighting, sound, and visual composition
- Media theory, ethics, and copyright awareness

Why Take This Course?

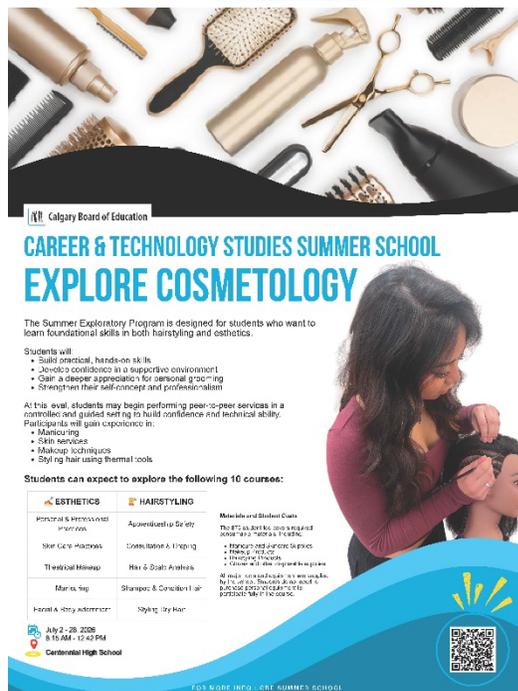

- Create podcasts, broadcasts, and video content
- Earn 5 CTS credits through hands-on learning
- Develop communication, interviewing, and digital communication
- Use professional style equipment and all professional tools
- Build confidence in your production and creative expression

Program Fee: \$15 plus \$100 equipment
The course includes a program kit and the use of all the gear included in the price.

CAREER & TECHNOLOGY STUDIES SUMMER SCHOOL EXPLORE COSMETOLOGY

The Summer Exploratory Program is designed for students who want to learn foundational skills in both hairstyling and esthetics.

Students will:

- Build practical, hands-on skills
- Develop confidence in a supportive environment
- Gain a deeper appreciation for personal grooming
- Strengthen their self-concept and professionalism

At this level, students may begin performing peer-to-peer services in a controlled and guided setting to build confidence and technical ability. Participants will gain experience in:

- Hairstyling
- Skincare services
- Makeup techniques
- Styling hair using thermal tools

Students can expect to explore the following 10 courses:

ESTHETICS	HAIRSTYLING
Personal & Professional Services	Advanced Up-Do Style
Skincare & Waxing	Chemical Relaxer & Hair-Up
Therapeutic Massage	Men & Beard Analysis
Manicure	Shampoo & Conditioner
Facial & Body Analysis	Styling by Hair

CBE CAREER & TECHNOLOGY SUMMER SCHOOL PROGRAM EXPLORE WELDING

Explore Welding is a hands-on CTS course where high school students earn 5 CTS credits while learning how to cut, shape, and join metal using industry-standard welding equipment. Students progress from guided practice to designing and fabricating a custom metal project they can take home, gaining real-world skills in a fast-paced shop environment.

WHAT YOU'LL LEARN

- Safe use of welding and fabrication tools
- Measurement, layout, and joint preparation
- MIG and stick welding basics
- Oxyacetylene cutting and welding techniques
- How to design and fabricate an individual metal project

Course fee: \$120
Fee pays for student PPE and learning materials

CBE CAREER & TECHNOLOGY SUMMER SCHOOL

INTRODUCTION TO NETWORKING AND CYBERSECURITY

Register for this hands-on tech course where you will build PCs, create networks, and explore how cybersecurity works inside our Digital Futures Collegiate lab. You will earn five CTS networking credits to prepare you for using professional tools, such as Cisco Packet Tracer, Wireshark, Hyper-V, and VirtualBox. If you are into tech, gaming, ethical hacking, or interested to learn more about careers in IT, this is the course for you!

What You'll Learn:

- **PC Hardware:** PC/Laptop hardware & communication protocols
- **Operating Systems:** Single/Dual boot installation & Type 7/2 Virtualization
- **Networking:** Ethernet LAN and WAN concepts & hands-on skills
- **Systems:** Windows, CLI-Console, Web/Database/File/OS servers
- **Coding:** OOP C/C++, SQL
- **Cybersecurity:** Encryption, Firewalls & User Profile security

Why Take This Program?

- Earn 5 CTS credits for admission to post-secondary schools:
 - NET1010: Digital Technology
 - NET2020: Workstation Technology & Operations
 - NET2030: Network Structures
 - NET2040: Network Media & Devices
 - NET2050: OSI
- Increase your "future ready" skills
- Learn from industry-experienced teacher in a state-of-the-art lab

Course Fee: \$15

Cover consumable materials and resources required for hands-on networking and cybersecurity activities.
